## PROGRAM FOCUS

This program is designed for children who can benefit from a full-day kindergarten program. Our focus is on each child's developmental needs in relation to the Common Core Standards. During the school year, the class focuses on literacy, math, and project based learning activities. Each month students have the opportunity to choose a learning topic to explore that allows them to wonder, investigate, and foster a love of learning by gaining new knowledge. Our goal is to meet children at their individual stage of development and give them the tools they need to tackle challenges and achieve the next level.
